

STAGE PLOT: New Agrarians

Pierce will be running 2 guitars through an A/B box into 1 DI. He'll need an electrical outlet for a powered pre-amp. Basically, he'll get a level on one guitar, then he'll adjust the gain on the other using the pre-amp.

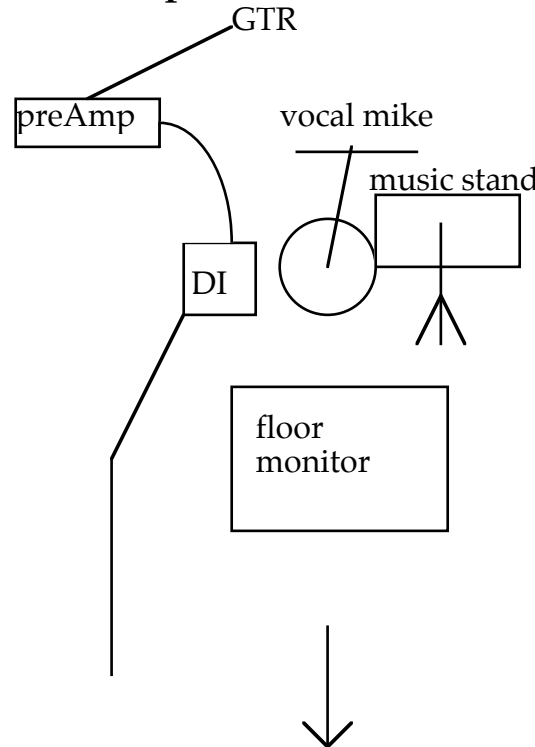

Pierce Pettis (vocals, 2 guitars)

Pierce will need 1 direct box (DI), one AC power outlet, one vocal mike, a music stand, and a monitor.

Kate is running one guitar through a DI.

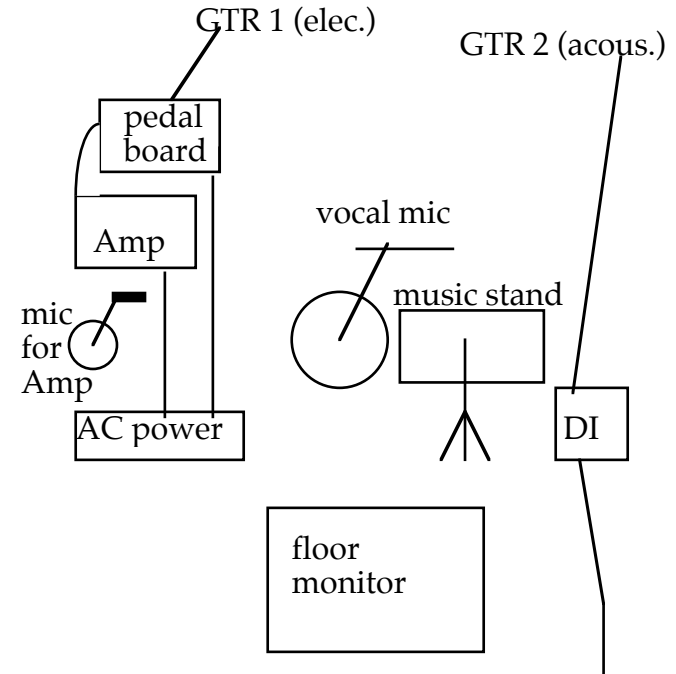

Kate Campbell (vocals, 1 guitar)

Kate will need a vocal mic, a direct box (DI) for the guitar, a music stand, and a monitor.

Tom will be bringing two guitars, a pedal board and a small amp *(if it's easier for the sound man for him to use a house amp, that's fine). The first guitar is electric and will run through the pedal board into the amp. The amp will need to be miked and he will need a power strip for the amp & pedal board. His second guitar is acoustic and will go into a DI.

Tom Kimmel (vocals, 2 guitars)

Tom will need a vocal mic, 1 direct box (DI), a power strip, a mic for his amplifier, a music stand, and a monitor.
